Who knew that dusty old pile of weird beakers, boilers, and bottles full of strange-smelling ingredients you found in the basement would soon become your ticket to alchemy school? After a bit of tinkering, and perhaps a few mishaps, you and your pals seem to have a knack for it!

Fun is brewing for all ages in Little Alchemists, a game of potion craft and deduction for two-to-four players. Based on the original Alchemists game released in 2014, Little Alchemists is a streamlined standalone version that's geared toward younger players and their families.

- Gather ingredients, and brew and sell potions, all based on experimentation and ingredient deduction.
- Scan ingredients to craft unique potion combinations with a tablet or smartphone.
- Unlock new chapters across multiple replays — each layers on new mechanics and complexity to expand the core experience.
- A great primer on the basic concepts of Alchemists — once you've mastered Little Alchemists, you should be ready to try out the original euro game!
